

*"If I had an hour to solve a problem and my life depended on the solution, I would spend the first 55 minutes determining the proper question to ask, for once I knew the proper question, I could solve the problem in less than 5 minutes."*  
- **Albert Einstein**

# Nature of Place Consulting

an ecological approach to site & building design

Project Scope + Social Systems + Natural Systems

Our outcomes are unique to every project, but our **core approach** is consistent:

- 1. Ecosystem Assessment**
  - historic - present - potential
- 2. Community Engagement**
  - collaborating with stakeholders
  - aligning with local initiatives
- 3. Project Strategy**
  - identifying what is relevant & important
  - setting goals & recommending strategies
- 4. Design Integration**
  - collaborating with team to integrate findings
  - generating a compelling ecological story

*We support your legacy and your client relationships by ensuring projects continue to gain vitality long after the design team has gone*
